Discover Infrabel

Build, manage, maintain and modernise the Belgian Rail Infrastructure
Allocation of train paths & traffic management

12
Freight operators

3
Passenger operators

Business needs towards rail

What do our customers expect ?

Intermodality

Sea – IWW – Rail - Road

Interoperability

Smooth cross-border connections

Good hinterland connections

Free of congestions – Room for growth
flexible - environmentally friendly

What Infrabel has to offer

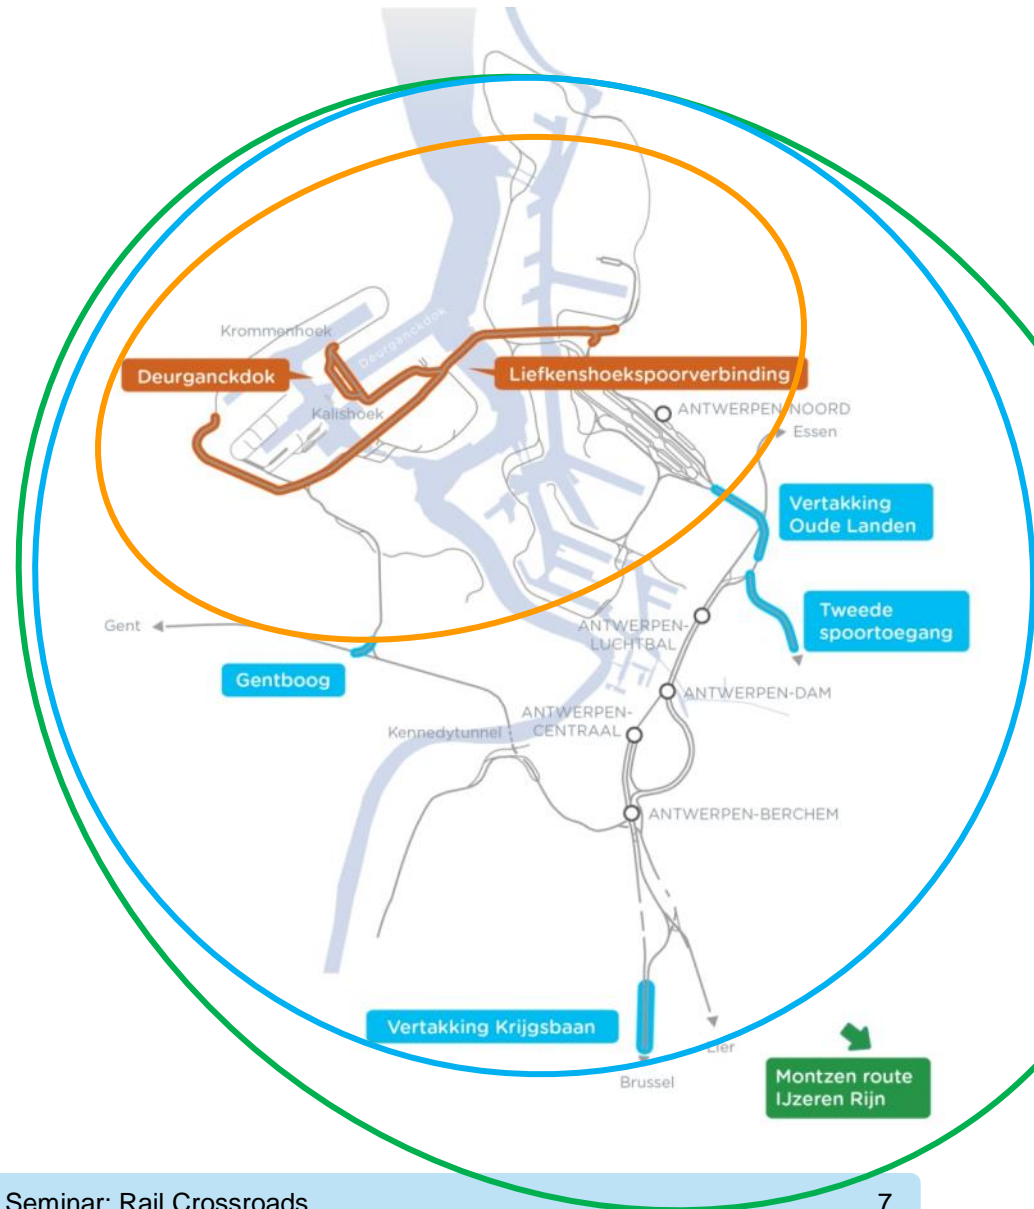

Investing in capacity

e.g. Antwerp

○ **1st circle**
increased efficiency
within the ports

◎ **2nd circle**
improved access
to the Belgian ports

◎ **3rd circle**
future gateways
to our ports

Investing in an improved service concept

e.g. Rail Freight Corridors

<p>Corridor One Stop Shop</p>	<p>Interoperable infrastructure</p>
<p>Pre-arranged paths</p>	<p>Coordination of works</p>

Partnership with Belgian Ports

Agreement to optimize
collaboration with Belgian Ports
(june 2015)

Sea Rail:

Event organized by Infrabel
for stakeholders and partners

May 2016

Connection between rail
and sea
